Product Description

WX commercial duty wall fans are designed for pubs, restaurants, offices, kitchens, factories, schools and shops, and are suitable for single, cavity brick and timber frame walls. The low profile white fascia is styled to blend in cleanly with commercial surroundings, while on the WX9 and WX12 units a positive plug and socket assembly provides a means of isolation.

The WX6EC model contains a low watt EC motor giving lower power consumption and reduced running costs vs a conventional AC motor.

The WX6EC comes complete with a wall-mounting kit which includes a corrugated plastic wall liner.
